

Addendum #1

Request for Proposals (RFP)

Combined Ambassador and Environmental Maintenance Services

Stamford (CT) Downtown Special Services District

The Stamford Downtown administers a power washing program that focuses on Main Street/Columbus Park, Atlantic Street (between Main Street and Broad Street) and Bedford Street. Stamford Downtown's Ambassador Team administers this program when seasonal temperatures rise above 40 degrees (typically April 1 – November 30). The Ambassador Team is scheduled to power wash the target area three (3) times during this period.

Pursuant to a directive from the City of Stamford, Stamford Downtown must reclaim all water used in this process so as to ensure water does not enter municipal storm drains. Stamford Downtown will require the selected vendor to provide all necessary equipment to administer the power washing program. All vendors must detail their strategy for reclamation of water used in the power washing process. The cost of this reclamation is borne by the vendor.

Contact Michael Moore - VP, Operations - at moore@stamford-downtown.com or (203) 348-5285 with any questions.
