**Coast to Coast and North to South,
Contradance is spreading everywhere!**

Contradancing is an inclusive, friendly and energetic New England form of dancing. The figures are taught by a caller and danced at a lively pace to [live music](#). For each dance called, you'll be primarily dancing with one partner, but you and your partner will dance with everyone in the line.

You will find many partners during the evening!

No need for prior dance experience. Come by yourself or bring friends - you'll find lots of people to dance with. If you're new to contra, be there at 7:15 for an introduction.
